

USA STEM Program FAQ's

1. Why one company should sponsor him or her for studies for the university fees and all?

Ans: **MPower will be providing the student loan of USD35000 which you can payback from 2nd year after you start your job.**

2. How it's converted to Green Card?

Ans: **Nurses go an F1 visa which gives them the 1+3 years benefit due to the STEM course.**

1 years for the course and 3 years is the OPT period (Optional Practical Training) during which they will be working as RNs in our partner hospitals

And F1 visa only allows 60 days after the graduation then how it's possible to make it as permanent residence?

Nurses go an F1 visa which gives them the 1+3 years benefit due to the STEM course.

When they start working in the US, Miles will apply for their EB3 or H1 Cap exempt Visa which will be approved within the period they are in the US so they need not worry about coming back to their home county and waiting for the approval

3. Which university it is

Ans: **Clark University: Massachusetts**

Franklin University: Ohio

St. Louis University: Missouri

4. How family can join?

Ans: **Spouse and dependent children (<18 years) can go with the nurse on F1 visa which would be the F1 dependant visa.**
